Inventory Management Solutions

S.L.FUSCO^{inc.}

FOCUS ON SOLUTIONS

S.L. Fusco's Focus on Solutions program has been designed as an enhancement to the standard supplier/customer relationship. The program brings S.L. Fusco and our customer into a partnership directed at efficiency and cost savings. The goal of the Focus on Solutions program is the development and documentation of mutually beneficial products and procedures.

Feature Options:

- **Supplier consolidation**
- **Web interface**
- **Consignment inventory**
- **Consolidated billing**
- **Automated customized usage and inventory reports**
- **Vendor managed inventory**

Program Benefits:

- **Productivity improvements utilizing best tools and practices**
- **Freight charge reductions**
- **Customer designed cost savings reports**
- **Company wide documented cost savings totaling over \$3 million in the last year**

The Focus on Solutions program is not limited to any specific product or procedure. Each customer will be evaluated and together, as partners, we can decide upon the best cost saving opportunities.

ToolBOSS Vending Solutions

Kennametal's tool vending machines provide secure storage of tools and supplies. Storage units can be used alone or together and offer secure inventory control, accountability of tool usage, and flexibility in storage options.

Benefits:

- Cut tooling inventory, often by 50% or more
- Decrease spending on new tools by up to 30%
- Reduce administrative costs significantly, often by as much as 90%
- Integrate the ToolBOSS machines with the NOVO app to monitor real time inventory during process planning

CribMaster works with its customers and partners to deliver leading solutions that improve the performance of manufacturing facilities and job sites all over the world. By providing intelligent inventory and asset management solutions, we help our customers optimize their operations.

Driven by Cribmaster's software platform, the comprehensive portfolio of vending and tool control solutions provides real-time intelligence to ensure that the right assets go to the right workers at the right time—reducing operational costs, increasing productivity, and improving compliance. Our professional services and technical experts help you put it all together.

SNAP VEND

SnapVend is a cost-effective vending solution that is affordable to manage, maintain and service. It delivers exceptional technology and reliable machines, while lowering transaction costs and controlling spending.

Hardware: Consists of industrial strength vending machines direct from a leading manufacturer of coil machines and lockers.

Software: A robust, intuitive, web based service that is among the most fully featured and best in class vending solutions today

Reports: Can be generated and configured to show the data you want, including door opened/closed, communication failures, dispenses, adjustments, etc.

S.L.FUSCO inc.

Rancho Dominguez, CA - Main Branch

National City, CA

San Leandro, CA

Phoenix, AZ

Mexicali, Mexico

Tijuana, Mexico

Guaymas, Mexico

S.L.F. S.L. Fusco, Inc. began distributing industrial supplies in the Los Angeles area in 1941. We have since expanded our sales area by establishing full service branches in San Diego, CA, San Leandro, CA and Phoenix, AZ. We further increased our capabilities with several acquisitions, all of which focused on cutting tools or abrasives. In addition, a merger with established Mexican distributor, Argo Del Valle, created **ARGOFUSCO** with branches in Mexicali, Tijuana and Guaymas.

Experienced Professionals

As specialists, we are in a unique position to help you meet and exceed your production goals. Throughout California, Arizona, Baja California and Sonora, Mexico, local sales representatives provide many years of experience and technical expertise.

Prompt Delivery

S.L. Fusco ensures fulfillment with customer-dedicated inventories at all of our distribution centers. Each

distribution center is equipped with company drivers and trucks, guaranteeing exceptional service.

Industry Leader

Utilizing a Windows-based platform and SQL server database, S.L. Fusco's ERP system provides an open environment that can easily be adapted to customer needs. EDI capabilities, customized reporting and remote order entry are just a few of our many services. As an ISO 9001:2008 certified company, our commitment is to continued growth and innovation to meet the demands of the marketplace.

Cost Savings

Every S.L. Fusco sales representative is responsible for providing documented customer savings. We encourage our customers to take advantage of these opportunities.

S.L. Fusco
